

lambda DAYS

18-19 FEBRUARY 2016
KRAKÓW, POLAND

CALL FOR PAPERS

Research Track on Functional Programming Paradigm and Applications
with a special section in the Computing and Informatics Journal

Programme Committee

Jamie Allen
author of Effective Akka
Marco Aldinucci
University of Torino, Italy
Jaroslav Arabas
Warsaw University of Technology, Poland
Chris Brown
University of St Andrews, UK
Juan C. Burguillo
University of Vigo, Spain
Laura Castro
University of Coruna, Spain
Carlos Cotta
University of Málaga, Spain
Marco Danelutto
University of Pisa, Italy
Maria Ganzha
Warsaw University of Technology, Poland
Kevin Hammond
University of St Andrews, UK
John Hughes
Co-Designer of Haskell and Quickcheck
Vladimir Janjic
University of St Andrews, UK
Jacek Kitowski
AGH University of Science and Technology, Poland
Tamas Kozsik
Eötvös Loránd University, Hungary
Tom Lenaerts
Université Libre de Bruxelles, Belgium
Andrea Magnorsky
Developer and co-founder of BatCat Games
Simon Marlow
Author of Parallel and Concurrent Programming in Haskell
John McCall
Robert Gordon University, Scotland
Ngoc Thanh Nguyen
Wrocław University of Technology, Poland
Renata Slota
AGH University of Science and Technology, Poland
Jose Gracia
University of Stuttgart, Germany
Robert Virding
Erlang Solutions, Sweden
Adam Warski
SoftwareMill
Janusz Wojtusiak
George Mason University, USA

The third in the row Lambda Days conference focuses on all aspects of functional programming paradigm in language development and applications in research and technology. The AGH University of Science and Technology is maintaining a strong scientific background for this conference, therefore we are trying to gather renown researchers from around the world, working with functional languages and their applications.

Researchers are invited to submit manuscripts presenting results related to functional technologies, languages and applications. Further instructions and submission details are available at the conference website. Manuscripts will be reviewed by at least two members of the Programme Committee.

All accepted papers must be presented on the Research Track and will be published in the special section of the **Computing and Informatics Journal** (ISSN 1335-9150, IF=0.504) indexed at the Thomson Reuters Master Journal List. This special section is edited by: Wojciech Turek, Roman Dębski, Aleksander Byrski and Marek Kisiel-Dorohinicki from the AGH University of Science and Technology.

Important Dates

manuscripts submission	23.11.2015
notification of acceptance	11.01.2016
final paper submission	01.02.2016
conference begins	18.02.2016
publication	beginning of 2017
